SILICONE ADDITIVES FOR AUTO & HOME CARE FORMULATIONS—SELECTION GUIDES

PRODUCT	SILICONE CONTENT	BENEFITS AND SPECIAL FEATURES
FS FLUIDS	100 %	Available in viscosities among 0.65 and 300000 cst. General use fluids to impart gloss, softness, water repellency and lubrication.
E-11 AND E-161 EMULSIONS	35 / 50 %	Polydimethyl siloxane emulsions with different silicone content. Same properties than FS FLUIDS. In addition, they are water soluble.
493 FLUIDS	100 %	Excellent solubility in water and different organic solvents. Excelent Surface tensión depressant and wetting agent. Good antistatic additive.
ME-3035 EMULSION	35 %	Partial reactive silicone emulsion imparting with water repellency, good gloss properties and excellent affinity to surfaces. Good weather and detergent resistance. Water soluble.
9071 FLUID	100 %	Organomodified silicone fluid suitable to impart durable gloss and water repellency. Good weather and detergent resistance. For being used in water-based formulations, It must be emulsified.
FF-50 FLUID	100 %	Excellent durable gloss with dry and soft feel. Better compatibility with organic waxes and oils than FS FLUIDS.
